

# Network Overview

When you join Pinecraft Equestrian, you connect to the IP:

**pinecraftequestrian.com**

This takes you to the Lobby, which acts as the central hub of the network.

From the Lobby, you can:

- explore minigames
- access the modded RRP world
- access the SMP world

The SMP server is where the main gameplay takes place, including the ModN Equine horse system.

The SMP server does not have SWEM downloaded on it and is cross-platform for both bedrock and java.

To play the modded version, a subscription needs to be purchased from the [Pinecraft Equestrian Store](#).
