

What Are Plots?

A plot is a protected area of land.

Inside a plot, the owner controls who can build, break blocks, use doors, open containers, interact with entities, and manage other access rules.

This prevents things such as griefing and stealing.

Wilderness

Land outside plots is considered wilderness.

You can claim any plot of land not currently owned by another player.

Where to Get Plots?

You can get plot claims from the following sources:

1. */shop (for real money)*
2. */questshop (for tokens earned from /questboard)*
3. */ah (from other players selling them)*
4. winning horse races
5. */warp docks (for points earned from winning races and chatgames; click on the shady guy at the end of the dock)*
