

Player Warps

Player Warps are locations made by players of the server. The following commands will help orient yourself to the possibilities of these places. These help you customize/edit your /pwarp.

`/pw (warp)` and `/pwarp (name)` : type this to teleport to any playerwarp as long as you know the name.

`/pw` and `/pwarp` : Shows all of the pwarps made with ways to search both player usernames, pw names, and sort via categories.

`/pw help` and `/pwarp help` : will bring up all the commands you could ever need

Basic `/pw` commands:

`/pwarp set (name)` and `/pwarp create (name)` : Sets a pwarp where you are standing for \$12k. Rent of \$12k

auto renews the `/pw` every six months as long as you log onto the server.

`/pwarp reset (warp)` : Moves the location of the `/pwarp` to where you are standing

`/pwarp remove (warp name)` : removes that warp

`/pwarp removeall` : removes all your warps

`/pwarp setowner (warp) (player)` : Transfers ownership to the player imputed

`/pwarp lock (warp)` : Makes it so only you can go to the `/pwarp`. Repeat the command to unlock it.

`/pwarp desc set (warp name) (description here)` : allows you to describe your `/pw` in a few words

`/pwarp icon set (warp name)` : hold the item while typing this command. Changes the icon in the `/pwarp menu`

`/pwarp icon remove (warp name)` : removes the icon in the `/pwarp menu`

`/pwarp category (warp name) (category)` : adds a category to the `/pwarp` in the menu. (Choices: Barns, Houses, Riding, Shops, and Other (the default))

`/pwarp rename (warp) (name)` : Renames a `/pwarp`

Notes:

- You can have a maximum of 3 /pwarps

- /pwarps will cost 12k every 6 months per /p warp. You must log online to be charged. This helps keep /pwarps relevant and keeps the menu nice and unclogged!

The /Pwarp menu showing the different categories.
