

Warps

Like player warps (/pwarps), /warps are ways to teleport around the world to points of interest. Unlike player warps, /warps lead to server-owned locations. Common /warps are listed below.

/warp TackShop (buy horse supplies including blankets, leads, and crops here!)

/warp Bank (sell smelted ores for money here)

/warp VetClinic (buy horse healing items here)

/warp Docks (head to the end to find the Shady Guy/Night Market)

/warp Stables (where you can sell Trophies for money and get your starter horse.)

/warp EndPortal

/warp HMarket (Although not in as much use now, this is a great place to list horses for sale.)

/warp InfoCenter (Council made tutorial for just about everything in the game. When in doubt- look at InfoCenter!)

/warp TownHall (See info on voting, staff, and more here)

/warp Vote (takes you directly to the voting area)

/warp Lobby (Takes you to the portal back to lobby.)

/warp Market (Takes you to the open-air market for some random items like meat and dye.)

/warp PetStore

/warp RaceTrack & /warp RainbowRiot & /warp SugarRush (Takes you to the three server racetracks)

/warp YoGods! (takes you to the arena for the pvp event that occurs multiple times a day)
